

## LADIES SHOE REPAIR

Ladies' Heel may be made of rubber, leather, or other material, serving as the thin layer that touches the ground and goes under the heel of the foot.

Ladies dowel heels

**\$20 pair**

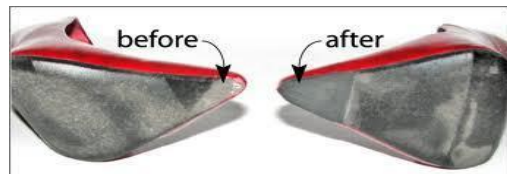

P

Ladies reg toplifts

**\$25 pair (Medium Size)**

**\$30 pair (large size)**

Toe Pieces is an alternative to replacing the entire sole. A small portion of the front of the sole is replaced with rubber for lasting wear.

**\$35 Pair**

Sole Guards/Protective Soles are thin, high quality rubber soles that go on top of an existing sole. Protective soles provide much better traction and greater longevity for the bottom of the shoe.

**\$60 pair - Sole guards & heels combo \$75**

## Casali Mirror soles

### For Christian Louboutin

Red sole Guards/Protective soles. Thickness – 1mm or 1.8mm

Colors: Black, Red, Chocolate, Nude, Rose and Silver.

**\$75 pair**

Half Soles are made of leather or rubber, most often used as replacements for the original bottom of a ladies shoe. The bottom portion goes from the shank of the shoe to the toes, sparing the back portion of the sole that extends to the heel. **1/2 soles \$65 pair – ½ soles & heels combo \$85**

## MENS SHOE REPAIR

Rubber Heels come in various sizes and shapes, known to be longer lasting and less expensive than combination or leather heels.

**\$60 pair**

Combination Heel is a top-lift that is made of leather in combination with a rubber back. The rubber on the back of the heel provides better traction and wear.

**\$60 pair**

Sole Guard or Protective Sole is a rubber layer placed on top of an existing men's sole. This provides better traction and longer wear.

**\$60 pair**

**Sole guards & heel combo**

**\$100 pair**

Half Soles, house leather or rubber, extend from the shank of the shoe through the toe and involves the replacement of the soles in that area.

**½ Leather \$75**

**½ Leather & Heels \$125**

Full Soles & Heels is the replacement of the entire bottom of shoes, heels replaced also.

**House leather: Full Leather & Heels \$160**

**Premium grade leather (JR Leather): Full Leather & Heels \$225**

Walkbase Dogbone soling is often blended with a higher ratio of rubber compared to the foam - heavy EVA used in the standard Birkenstock soles. This makes it for resistant to "grinding" down, especially for those that drag their heels.

Non-Slip properties because it is rubber blended, it generally maintains its traction longer than pure EVA, which can become smooth and slippery as it wears down.

Dogbone color options: Pink,White,Red,Beige,Tropic,Blue & White

Vibram rubber sole with midsole \$125pr

## FOOTBEDS

Birkenstock footbeds regular & narrow width.

Birkenstock soft footbed, reg width only

\$65pr

## WESTERN BOOTS

Vibram rubber cowboy heels

**\$75 pair**
